Donald Roberts MSc ● CMIOSH ● AIEMA

CHSS has 40 highly qualified full time consultants with considerable experience in diverse sectors

- Dedication
- Quality
- Professionalism

Current Position

Don is a fulltime Senior Health and Safety Consultant with experience delivering IOSH & NEBOSH accredited courses. From his professional background he has experience of COSHH. He also provides a range of consultancy services.

Professional Background

Don has over 30 years experience of working in a wide range of sectors including cosmetics, chemical, electronics and mining. At Sony Manufacturing he worked as Environmental, Health & Safety Manager responsible for compliance with legislation, adherence to ISO 14001 & OHSAS 18001 integrating system, writing and maintenance of company policies & procedures. He conducted safety audits, implemented risk management control conducting a wide range of risk assessments and analysed and presented accident/incident statistics. He was responsible for accident investigation and liaising with solicitors and loss adjusters. He also prepared and presented training packages. He set local safety and environmental objectives. He promoted safety issues adopting best practices and represented the company with government bodies, customers and contractors. He handled and investigated industrial accident claims. As Mixing Manager he was also responsible for safety in the usage of chemicals ensuring COSHH compliance and undertook static and personal air monitoring. He was responsible for the successful application of IPPC

Prior to this role Don was Senior Chemist at Ondawel where he carried out quality auditing, maintained BS 5750, ensured COSHH compliance and supervised lab personnel. He liaised with various departments on site and at U.K. and German headquarters, with suppliers, contractors, customers the NRA and Welsh Water. He was also Chemical Engineering Technician and Scientific Technician at blue chip companies.

Areas of Expertise

Don is an experienced trainer of a range of accredited training for IOSH and the NEBOSH Certificate. He also specialises in COSHH safety

Brenig Moore BSc(Hons) ● MPH ● MCIEH ● CMIOSH

CHSS has 40 highly qualified full time consultants with considerable experience in diverse sectors

*Dedication ●
Quality ●
Professionalism ●*

Current Position

Brenig is a fulltime Principal Health, Safety and Environmental Consultant for CHSS specialising in law and enforcement and environmental management. He has considerable experience delivering accredited IOSH and NEBOSH courses and he is a NEBOSH Diploma Manager. He is a key member of the environmental training and consultancy team. He is also Training Manager, responsible for the quality, development and maintenance of the training courses.

Professional Background

Brenig has 10 years' experience of working in the public sector for various Local Authorities. As an Environmental Health Officer at Caerphilly County Borough Council, he specialised in health and safety and food safety enforcement and pollution. He was responsible for the development of safety management issues at Directorate and Corporate level.

He also worked as a Senior Environmental Health Officer for Rhymney Valley District Council involved in combined food safety as part of the health and safety enforcement team. He also gained experience in Environmental Protection enforcement and led a Housing and Statutory Nuisance enforcement team.

Areas of Expertise

Brenig, as well as Training Manager, is a lead tutor for the NEBOSH National General Certificate, NEBOSH Level 4 Diploma and IOSH accredited courses and has trained many corporate clients including Shell, Transco LNG, Kimberly Clark and public sector clients including Local Government. He is a Manager of the NEBOSH Diploma offered by CHSS coordinating the delivery of the Diploma to ensure delegates are well supported. Bren has been part of the team for developing the new NEBOSH Level 4 Diploma. He is a key member of the environmental team and has delivered a range of environmental courses for organisations including Transco, BMW UK Manufacturing, Amersham Pharmacia. He specialises in environmental protection and environmental risk management.

Bren regularly works closely with organisations to develop tailored courses to suit precise needs such as Tibbet & Britten, RMC Group, local government. Brenig provides health and safety consultancy including risk assessments, health and safety policies, management systems and Safety, Health, Environmental Advisory Service (SHEAS) and has worked with clients such as Welsh Water, Intel.
