### Course Key Facts

Duration: 10 days + 1 day for exam

Location: To be confirmed

Dates: To be confirmed

Price: Includes comprehensive course notes, NEBOSH exam fees & Certificate, etc.

### Course Overview

This course has been developed for multinational organisations in all sectors working in accordance with international standards or directives but adapting to local needs. It provides organisations with a global presence seeking to adopt an internationally recognised health and safety training programme for its staff. The Certificate is an internationally recognised qualification and provides an excellent basic grounding in the essentials of health & safety for personnel accountable for these responsibilities in their organisation.

CHSS has applied its extensive resources and expertise to develop & deliver the NEBOSH International Certificate 40 delegates completed the course in with excellent pass rates comprising 6 distinctions in the Middle East.

### Who the Course is For

The Certificate is for personnel e.g. managers, supervisors, non-safety specialists etc with health & safety responsibilities & who need a grounding & recognised qualification in occupational safety & health.

### Learning Outcomes

After successfully completing the course the manager will be better able to:

- Understand best practice standards through HSG65, 18001, moral & economic requirements & implications for good standards in health & safety within an organisation.
- Develop, promote & communicate an effective health & safety culture in an organisation.
- Identify the key features of a health & safety policy, the preparations & performance review of a health & safety audit.
- Understand the importance of proactive & reactive health & safety monitoring measures.
- Identify hazards in the workplace & carry out risk assessments, record findings & review procedures.
- Advise on strategies for controlling hazards, reducing risks & applying safe systems of work.
- Identify fire hazards & consequential risks, advise on measures to minimise fire risks & develop fire procedures. Identify ill health effects of physical processes of work & the environment & recommend suitable measures to combat risks.
- Explain the processes & procedures for investigating & reporting accidents at work.

### Certification

Delegates are awarded the Certificate on successful completion of two 2-hour written papers: Management of Safety & Health, Controlling Hazards and a practical assessment.
